## EVERYTHING FIXED.

Commenting upon a dispatch stating that Senator Jones had announced in New York that he would not accept a Cabinet position if it were offered him, the San Francisco Report says that from what it has heard it believes that the Senator may change his mind; that indeed it is reported that he will be offered a place in the Cabinet and will accept it on condition that John W. Mackay be appointed Senator in his place; Governor Kinkaid, in consideration of said appointment, to have the influence of the bonanza arm exerted for his reelection for Governor. Jones reserves the right, however, that should he desire to retire from the Cabinet position and to again enter the Senate, the bonanza influence will be exerted in his behalf for election by the Nevada Legislature. The Report further understands that Mr. Mackay is desirous of making his home in New York.

We do not swallow such reports in any such doses. It will be noticed that the people do not form a factor in the above calculation.

## HELP TO CROWD THE FAIR.

Sacramento loses friends every year because its citizens display so little interest that they even refuse to attend at the track and pavilion. Reno people should do all they can to make the Fair interesting; and they are not aiding in the good work when they refuse to attend and try to discourage visitors from a distance from doing so. People come here on purpose to see the races and the Pavilion, and they would enjoy their week a good deal better if everybody from here tried to go and manifested an interest. Business is all very well, but it does not look well for people to be so anxious to sell a few goods that they try to keep people in town instead of at the track.

## CONKLING'S CONTEST.

According to our dispatches Conklings has concluded not to be present at the New York Convention. This action says that his friends admit an opposing strength which cannot be overthrown without a contest which would bring no honors.

It is reasonably certain that Roscoe Conklings will be returned to political life, and that he will have Arthur's aid. His plans look farther into the future, however, than was supposed. Thurlow Weed says the President is exerting all his influence to restore party harmony in New York. It is equally sure that death alone will terminate the friendship between Arthur and Conklings.

These facts go far toward prophesying some important changes, under the control of Arthur, which will give to Conklings his proper weight with the Administration.

The basis of compromise will probably give more consideration to the Independent Republican element, and it will at the same time give heed to Conklings' undeniable influence and ability.

Conklings will return to political life.

If he has learned his lesson, well and good.

## EDITORIAL NOTES.

Thus far the electric light has been a failure except as an advertisement. Nicoli, the tailor, and such folks use them, but for lighting towns and cities they are costly and inefficient. Denver has been trying to light the city with lamps on four high towers, for which they agree to pay \$14,000 a year if successful, but they have ordered them down.

It has been said that President Arthur's sister Mrs. McElroy, would, in a manner, run the White House on shares. Mrs. McElroy's better-half says she won't if he knows himself, and he thinks he's been introduced.

There is a remarkable coincidence in the deaths of three generations of the Garfield family. Thomas Garfield, the grandfather of the President, died suddenly while a young

man, leaving a widow and babe. That babe was Abram Garfield, who died suddenly in 1833, leaving a widow and four young children, the baby being James Abram Garfield, whose untimely death the nation mourns.

It is said that Secretaries Kirkwood and Windom have already intimated they would be candidates to succeed their successors in the Senate. Windom has apparently entered on an active canvass for his old position in the Senate.

The cities furnish no Presidents. Not a single President, from Washington down to Garfield, was born in a city. Only the second Adams was even nominally the resident of a city when elected.

The Appeal man is haunted by the idea that he does not write good English. There is no real cause for mental depression on this score. If true, it will not hurt his editorials.

## TELEGRAPHIC BREVITIES.

The fund for Mrs. Garfield and family reaches \$334,689.

Silver King to-day declared a dividend of twenty-five cents.

The Garfield monument fund \$5,137. Collections to-day \$1,077.

Fletcher U. Harper, of Harper Bros., died in New York yesterday.

Parnell says the Land League intends to form a labor department.

Senator Jones, J. B. Chaffee and Ulysses Grant, Jr., called on the President yesterday.

A project is on foot among the Americans in London to build a church in Memory of President Garfield.

Two women suspected of preparing to make an attempt on the life of the Czar, have been arrested in Vienna.

Ex-Governor Moses, of South Carolina, was arraigned yesterday on the further complaint of great frauds brought by John D. Tormsend.

Franklin J. Moses, formerly Governor of South Carolina, was looked up in New York October 3d, on a charge of swindling Wm. L. Hall a retired hotel keeper, out of \$25.

At Lodi Monday night Frank Pigall was cut in the abdomen by a young man named Hi James. It is believed the wound will result fatally.

## Safe and Sound.

A rumor was current yesterday that the freight train bearing Maggie C. Fred B. and their trainers, had been ditched at some point west of here. The GAZETTE doubted the report because it is advised by telegraph of all such events. Last night the animals arrived safe and sound as when they left Reno. Maggie won every race for which she was entered, beating a very fine field at Stockton in good time. Frank Dodd, her trainer and driver, smiles gently, and seems to be perfectly satisfied with the brown mare's gait.

## Safford Stories.

Harvey Tompkins has just returned from Safford district near Palisade. He says there has been a great deal of misrepresentation about the district. There has been practically no work done. The deepest mine is about 18 feet, and the owners are devoting their time to the work of praising the mines which are yet undeveloped. Tompkins has seen a great many mining camps and does not think much of the new find.

## Assessments.

Assessments on thirty-one stocks, representing as many mines, will become delinquent during the month of October. The total amount called for is \$634,250, of which \$406,250 will go to assist in developing the Nevada mines, and the balance to prosecute the search for the precious metals in California, Dakota, Arizona and Utah.

## What is an Inch of Rain?

An inch of rain is that quantity which, falling upon a level surface, and not absorbed or allowed to run off, would stand one inch in depth. The amount of water falling upon an acre of ground would astonish any one who has given no thought to the subject. On each square foot of surface there would be 144 cubic inches, and on one acre, which contains 43,560 square feet, would be 2,272,640 cubic inches, which, reduced to imperial gallons, each containing ten pounds avoirdupois, would be 23,923 gallons, weighing 233,230 pounds, something more than 113 tons weight to the acre.

# TO-DAY'S NEWS

Press Dispatches to the EVENING GAZETTE.

## EASTERN.

Guiteau Indicted.

WASHINGTON, October 4. At 11 A. M. the Grand Jury, having seen additional witnesses, concluded Guiteau's case, and voted unanimously for a true bill, but did not report at once to the Court. Some believe that Guiteau will be arraigned before the Court adjourns to-day to thwart any intentions the crowd may have. About one o'clock the foreman, Churchman, passed into the hands of Corkhill a presentment against Guiteau for the murder of James A. Garfield, by wounding with a bullet fired from a pistol in the hands of Charles J. Guiteau, at the Baltimore & Potomac Depot, on or about the 2nd of July, 1881.

## The Stalwarts Give It Up.

NEW YORK, October 4. The Sun says: Conklings telegraphed again to his friends that he would not attend the State Convention to-morrow, and would not be in the city. The Stalwarts and half-breeds alike talked of peace and harmony, and all political prophets about Fifth Avenue Hotel in the evening, predicted a short and quiet Convention. Even the staunchest Stalwarts conceded that the half-breeds would have a majority in the Convention, ranging anywhere from forty to eighty.

## Tammany in a New Dress.

NEW YORK, October 4. Tammany Hall had an Anti Monopoly meeting to-night. John Kelly, in a speech, said: "We ask the Democratic party to send no man to the State or National legislature unless it is understood that he goes there to legislate for the interest of the whole people and not in the interest of corporations organized during the last quarter of a century."

## St. Julien out Again.

NEW YORK, October 5. On Thursday St. Julien is to be speeded at Point Breeze in an endeavor to beat the three last heats made by Maud S in Belmont Park. St. Julien is said to have lately rounded up to his work in magnificent form. His performance at Point Breeze will be noted as an indication of what he will do when he meets Trinker in the coming matches.

## New York Politics.

NEW YORK, October 5. The Republican Central Committee which antagonizes the so-called machine committee, has elected delegates and alternates to the State Convention, and will contest the right of their opponents to seats in the Convention, on the ground that the latter do not represent the preponderating element in the Republican party.

## Moses' Mistake.

NEW YORK, October 4. Benjamin Shadbourne and his son Wallace have been found guilty of murder in the first degree in killing one Wilson at Parkman, Maine.

## FOREIGN.

### Suffering Sweden.

COPENHAGEN, October 4. Letters published here state that crops have failed in Sweden. Famine is impending.

### Out of the Race.

LONDON, October 4. Iroquois is scratched for the Czarowitch stakes.

## WESTERN.

### After the Redskins.

SAN FRANCISCO, October 5. A Star, Tucson, special yesterday, from Dragoon Summit, says: The Indians, about a hundred strong, crossed the track here about 5:30 this morning, the trail leading directly toward Cochise's stronghold, which is about fourteen miles westerly from Tombstone. The cavalry were in close pursuit, and late this evening were within less than one mile of the hostiles. It is feared if they are not overtaken to-day they will escape into Mexico. There are about four hundred Mexican troops on the line, which, if notified in time, can easily intercept them.

### LATER—THE HOSTILES OVERTAKEN.

TOMBSTONE, A. T., October 5. Two men have come in from the Dragoon mine on the summit of the Dragoon mountains, about 16 miles northeast of Tombstone. They report

a battle being fought at 5 o'clock this evening. From where they were they saw it plainly, and could hear the voices of the officers giving commands, and the firing. They distinctly watched the battle for half an hour, but could not see that either side was getting the better of the other. They judged there were two companies of soldiers, but could not tell how many Indians. Some soldiers and Indians were mounted. Couriers have been sent to the mining and hay camps east of Tombstone to notify men of their danger. Mayor Clum and Chief of Police Earp are now, at 11:40 P. M., raising a company of men to go out and intercept the Indians if they go south.

### Another Arizona Affray.

TOMBSTONE, October 4. On Sunday afternoon, at 3 o'clock a man named McFarland was shot in Bisbee by a Mexican named Mariendo. McFarland was interfering to stop a fight between a man named O'Brien and some Mexicans, when Mariendo snatched the pistol out of O'Brien's hand and shot McFarland in the forehead. He lived until 13 o'clock at night. The murderer has not been captured.

### More Debris Sails.

MARYSVILLE, October 5. The Board of Supervisors of Yuba county this morning passed a resolution by a vote 4 to 1, instructing the District Attorney to commence legal proceedings against all persons emptying or distributing debris in the Yuba river, or any of its tributaries, by hydraulic mining.

### Another Pioneer Gone.

SACRAMENTO, October 5. Jerome C. Davis, one of the city Trustees of Sacramento, and an old pioneer, fell down the steps at his house this morning, and died this afternoon at ten o'clock.

The Virginia Chronicle has invented a word. The word is "blackly." We will give something for putting the GAZETTE ad. on this novelty whenever it comes into use.

 The GAZETTE is informed that Superintendent F. W. Dunn of the Nevada Central is desirous of increasing the eastern attendance at our fair by excursion rates if arrangements can be made.  
 Tough on the Drummers.  
 The cool weather might be accountable for the recent large arrivals of winter clothing and goods furnishing goods in Reno. The fact seems to be, however, that local merchants are growing in enterprise as their business expands, and the people have ceased to think it necessary to send away for anything. The celebrated White House, firm of Abraham Bros., have almost entirely driven out foreign houses from this market. Drummers for clothing orders are now very scarce in Reno, and it is simply because the White House carries such an enormous stock that everything needed can be bought at home. The fall and winter stock now being unpacked at this justly famous emporium is without doubt the largest ever brought to Nevada.  
 The Palace Restaurant.  
 Peter Dalton, formerly of the Metropolitan Restaurant, has taken charge of the elegant dining parlors connected with the Palace Hotel. Every delicacy which the market affords will be found on the tables at the Palace.

## ALTURAS.

The County Seat of Mono County—A Live Business Center.

Modoc county was cut off from Siskiyou in 1874 and the county seat was placed at the junction of the north and south forks of Pitt River, near the geographical center of the new county. There was not a house there when it started, but it grew into a village almost immediately. It was first known as Durris Bridge and later as Alturas. It has a level and pleasant location, but the soil does not seem to be good, as trees and vegetation grow slowly. The climate is cold and frosty. It is considered to be an unhealthy location on account of the low land lying to the west between the two rivers, over which the wind comes most of the time. The water is bad, too. There are several nice homes and some good stone buildings. In the Court-house N. B. Ryan is the only Republican sheep in the whole flock. He is County Treasurer, and is a very popular man. He is the only Treasurer the county ever had, and no one knows how long before it will need another to fill his place—not until he dies, probably.

O. D. Weller is Sheriff and J. Cannon Deputy. Both are popular, and are liable to reverse their positions at any election. N. Fitzgerald, ex-County Clerk, is one of the ablest men in the northern country. He is capable of filling any position with credit to the county. Judge Harris is Supreme Judge and F. W. Ewing the District Attorney, and a rising young man. George Welch is Clerk and Recorder. He keeps

## AN ELEGANT SET OF BOOKS.

The binding and penmanship are both very superior. J. C. Bowmer is the leading lawyer, and has a large office, practice. He is a good student and a pleasant gentleman. Ex-Judge Holliman is now practicing, and is in charge of the public library. Drs. Forest and Kent are kept busy by the ill of the inhabitants. Alturas has a good weekly newspaper, a flour mill, several lodges, etc. Spray & Payne, and Adams and Wilson saloons, Woodmanse, a butchershop; Mills & Dean, fruits and groceries; Estey, Livery; McKay, a planing mill and also a public hall. T. H. Short is the village blacksmith. Marks & Co. and E. Lauer have large stores, and carry heavy stocks of goods. Ryan & Laird keep the postoffice in a very neat drug store. The town can never be very large. It may have more business when a railroad comes in unless the line goes east of it a few miles as is likely. It does a big business now for its size, and has many excellent citizens. The north fork of Pitt river is very small, and has little good land. It is so frosty that vegetables and fruit will hardly grow, and there is neither water or land to make much of a country. South Pitt river, which runs off towards Susanville, is through a fine stretch of land. Over thirty-six thousand acres of land have already been patented, which is a good sign. The Nevada and Oregon has surveyed a route down through it, and near Alturas, running up the north fork and coming in on the east side of Goose lake. It would have easy grades all the way.

## More Ruins.

Mammoth City with the country about had three thousand inhabitants in July, 1879. It now has not ten. The buildings have been burned or moved away to Bishop Creek, where there are some ranches. The mines proved to be a pocket which played out. The big mill with the Mammoth mine, sold at Sheriff's sale for \$26,000. It cost half a million. The town has an altitude of 11,000 feet, and lies 50 miles northwest of Bodie amidst a grand scenery.

## Special Race.

On the second day of the Nevada State Fair, there will be a trotting race for a special purse of \$300. It will be mile heats, three in five, to harness, the first horse winning \$250, the second \$50 and the third \$25. For this race there will be five entries: Lady W., McClellan, Blue Dick, (the Chesley horse), Woodburn and Muggins.

## At the Asylum.

There are now twenty-three men employed at the asylum besides those engaged in the work of hauling. If there is no interruption the brick laying will be completed by October 23d, but it is hardly expected that it will be done before November 1st. The new lot of brick will be ready on Sunday next.

## THE SAD CEREMONY.

Honors to the Beloved Dead by a Large Circle of Relatives and Friends.

Major Scoville's remains were buried to-day at 2 o'clock from Trinity Church. He had expressed an appreciation of the beautiful funeral service of that church, and the friends felt comforted by the thought that his wishes might be for that form of worship at this time. The mourning drapery that was hung for President Garfield has not been removed and many rich floral tributes were added. A large pillow of white flowers with the word "rest" worked in the center in heliotropes stood at the head of the casket, which was of rosewood, heavily mounted. The table was draped with myrtle. The desks and organ were covered with bouquets. A beautiful wreath with S in the center, an anchor, a cross and baskets of flowers were appropriately placed. Wreaths, crosses and bouquets covered the casket.

The procession formed at the house and marched to the church, the Reno band playing the funeral march. Custer Post No. 3 of the Grand Army of the Republic followed the band. Immediately behind the standard-bearer walked F. F. Fowler, Thomas Moore, C. A. Bragg and G. L. Woods. Behind them the hearse with the pall bearers from the Grand Army. A message from the Governor directed to this paper announced that he was detained by important business. A special train came from Carson about 1 o'clock.

The services at the church were very impressive. The music was well selected and feelingly rendered. The Rev. W. R. Jenvey led the congregation in the burial service of the Episcopal church, and Rev. Dr. Winfield Scott preached an instructive sermon. At the grave the wind blew mournfully across the hills, and as the preacher said "Dust to dust," the hearts of the multitude went up in the benediction "Rest in peace."

## A Silver Palace.

Reno is becoming famous for climate, schools, enterprise, good business men, and her large stocks of merchandise. Everybody has heard of Colonel Andrew's Diamond Palace in San Francisco, with its glittering gems and revolving mirrors. Reno has not rivaled that establishment as yet, but the store of F. Fredrick on Commercial Row, might with propriety be called a Silver Palace. In addition to enlarging his stock of standard watches, jewelry, etc., Fredrick has recently imported a large lot of well selected silver ware. These goods are all of the latest patterns and most elegant designs. There is one piece particularly, a nut bowl, which is certainly a credit to the silver smith. This ware was bought for cash, and will go at cash prices. Go and see it.

## Stage Stories.

The drivers on the long lines pick up an occasional joke, and they never forget them. One recently had a judge and an old woman for fellow passengers on one of the northern lines. The judge is a smoker and was aching for his cigar. When he politely asked her if it would be offensive, she said: "Yes, cigar smoke makes me sick." When they reached the station he stood outside puffing and shivering. When he stepped inside he found the old girl sitting beside the fire place puffing away at an old black pipe. He growled his growl, but she insisted that cigar smoke made her sick, though she loved her pipe.

## Entertainment.

One of the popular monthly entertainments will be given at the Baptist church to-morrow (Thursday) evening. The music will be under the direction of Professor Stimson, consisting of solos, quartets and choruses, rendered by the choir, assisted by Mrs. Taylor, Mrs. Greeley, Mrs. Stimson, Miss Monroe and others. There will be recitations given by Mrs. Scott, Miss Emma Cutting, Miss Minnie Scott; tableaux, also an artist's studio, representing great characters in history, T. F. Laycock, artist. Ice cream will be served at the close. Admission ten cents. Exercises commence at 7:30.

## Sierraville Rebuilding.

J. Olsen returned from California to Sierraville Saturday night. He says he will rebuild his store at once. Several others will do the same. Mr. Olsen has suffered severely from fire. His store at Jamison was burned in the fire there a year ago.

Mrs. Lancaster, of Mason valley, last week had her entire hay crop destroyed by fire in a rather curious way. Her hired man had left his vest, in the pocket of which was a bunch of matches, lying near the stacks. A team was driven past in such a way that a wheel of the wagon passed over the vest and ignited the matches.

In Ormsby county the V. & T. assessment was raised to \$16,000 per mile, main track, and the side track to \$5,000. These figures were also maintained in Storey county.

John Croall, for years foreman of the Virginia Chronicle press room, died of consumption on Sunday.

The average crop of barley in Churchill county this year is about 1,200 pounds to the acre.
